MEMORANDUM FOR FILE

SUBJECT: Voluntary CIARDS and Service Agreement

25X1 1. [] inquired about an LA situation where a COS is considering requesting voluntary retirement under CIARDS at age 50 for personal reasons in July 1982 following ten months overseas. Ruth questioned if this could be approved.

2. Chief, PPS and I discussed the conflict under waiving the service agreement prior to one year of service overseas by D/Pers and D/Pers' concurrence of voluntary CIARDS retirement. D/Pers' office very reluctant to waiver the service agreement for normal voluntary retirements. These have been approved in cases of "early-outs" (i.e., during reduced ceilings and for needs of the service).

3. Informed Ruth that the decision would rest on the reasons for the voluntary retirement request. If the request was valid enough for approval, waiver of the service agreement would have to follow. Personal reasons would not be sufficient to trigger this approval.
